

GIVE A HAND CHANGE A LIFE HANDS ACROSS BORDERS

A COMMUNITY OUTREACH INITIATIVE BY VENTURING CREW 2013, BOY SCOUTS OF AMERICA

The Hands Across Borders Project is an International, STEM-based, youth-led, community service project established in 2015. Through Hands Across Borders, open-source 3D-printed prosthetic hands and support devices are provided to recipients across the world who live with upper limb differences. The project is open and accessible to all interested youth and adults of any skill level! Email hands@crew2013.com or Call (719) 644-6254 for more info.

JOIN THE CREW

Consider joining our Venturing Crew - a co-ed leadership and character building organization and a part of the Boy Scouts of America. If you are between 13 and 20 and interested in building your own leadership skills through weekly meetings, monthly weekend events, leadership training, and community service, Venturing Crew 2013 may be for you!

Crew 2013 meets on Wednesday afternoons from 6:30 - 8:00 PM:

Western Tech High School

100 Kenwood Avenue,
Catonsville MD, 21228

Venturing Crew 2013 incorporates community events, outdoor adventure, and proven leadership training into our year-round program.

email join@crew2013.com for info!

DESIGN A HAND

Put your CAD skills to use and work with us to design the next innovation in humanitarian engineering. We are currently working on a brand new hand design called the "Raven Hand." This hand will be more durable, modular, and servicable than the current standard known as the "Raptor Reloaded 2.0."

Contact us for more details!

PRINT A HAND

Do you have a 3D Printer? Consider donating a bit of your time and material to a project that can change lives! Contact us to offer your services as a "Printer Contact". Long-term and short-term commitments are welcomed. **Additionally, check the back of this flyer to see if there is a local Hands Across Borders chapter near you**, and, if so, consider volunteering!

BUILD A HAND

If you would like to assist the Hands Across Borders project but don't know where to begin, consider getting in where all the action happens: a Hands Build!

If you are an individual, consider attending any "Community Build" by visiting crew2013.com/hands. If you have a group that would like to hold their own Hands Build, please contact us directly!
